CONSTRUCTION

• General: Fully Epoxy Composite Yacht.
• RINA Classification, Charter Class, Cross Hull, Short Range Navigation, plus EFP
• Hull Construction: Epoxy/GRP, Sandwich Composite.
• Molded Hull from temporary molds.
• Epoxy Resin with formulated hardener
• Molded Hull from temporary molds.
• Hull Core: Full PVC Linear foam core above and below waterline.
• Hull Fabrics: Biaxial e-glass fabrics.
• Hull Structural Stringers: Foam laminated structural stringers with selected steel taping plates.
• High density coring in way of engine girders.
• Hull Structure: Webs and floors in Epoxy/GRP composite foam.
• Solid GRP Areas: Single skin in way of underwater fittings and equipment.
• Chine Reinforcement: Kevlar/ E-Glass Fabric for chine lines.
• Watertight integrity: Three watertight bulkheads divide the Hull into four watertight compartments.
• All exterior surfaces are post cured and painted with Acrylic urethane top coat with custom laminate fabricated print blocker for the topsides and superstructure.
• Deck Construction: Epoxy/GRP, Sandwich Composite.
• Molded Deck, Superstructure, from temporary molds.
• Deck Core: Full PVC foam, Vacuum bagged.
• Deck Fabrics: Biaxial e-glass fabrics.
• Deck Structure: Foam laminated structural beams and hollow laminated forms.
• Deck Hardware Installation: High density core and reinforcement in way of hardware.
• Bulkheads: Infused and hand laminated composite Balsa structural bulkheads.
• Soles Lowerdeck, Upperdeck and Salons: Hand laminated composite PVC structural soles.
• Engine Room Soft Patch: Composite one-piece removable. Made from same laminate as salon sole.
• Secondary Bonding: Laminated and mechanically fastened bulkheads and partitions to hull and deck.
• Deck Hull Joint: Bedded, bolted and laminated deck hull.
• Resin used for the topside has a higher post curing temperature
• Emergency escapes are provided in accordance with classification requirements.
• Sundeck, Wheelhouse Construction: Epoxy/GRP, Sandwich Composite.
• Molded Sundeck, Wheelhouse from temporary molds.
• Sundeck / Wheelhouse Core: Full PVC crosses linked foam, Vacuum bagged.
• Sundeck / Wheelhouse Fabrics: Biaxial e-glass fabrics.
• Sundeck/ Wheelhouse Structure: Foam laminated structural beams and hollow laminated forms.
• Sundeck Wheelhouse Hardware Installation: Reinforcement in way of hardware.
• Hull Painting, exterior, all hull topside surfaces with undercoating, epoxy fairing, priming, and polyurethane finish, choice of lighter colors.
• Hull Boot top, priming, choice of colors
• Deck, Superstructure, Sundeck Painting, exterior, all deck surfaces with undercoating, epoxy fairing, priming, and polyurethane finish, choice of lighter colors.
Hull Underbody, all areas below the water, undercoating, fairing, barrier coats, anti-fouling, choice of colors.
• The laminate is a hand laminate approved by RINA, laminate is at 49% resin to 51 % glass ratio
